EDUCATION

B.Tech (CSE)
Punjab Technical University (Jalandhar)
06/2019 - 07/2023

10 + 2
S.D Public School
04/2017 - 03/2019

WORK EXPERIENCE

Full stack developer (Freelancer)
Softobiz Technologies Pvt Ltd

11/2021 - 05/2022   *Mohali, Punjab*
Achievements/Tasks

- Contributed actively in building semantically structured full stack web applications using React.js and Node.js, resulting in a 40% increase in application performance and a 25% decrease in development time.
- Immersed learning with industry tools like Azure Devops, Git, MS Teams and communicated effectively with other team members via meetings to work efficiently, resulting in a 15% increase in team productivity and 100% successful project delivery.
- Maintained a well-structured codebase with high scalability, resulting in a 60% reduction in maintenance costs and 90% reduction in code errors.

SKILLS

Javascript   Python   React.js   Node.js

Flask   FastAPI   HTML   CSS   MongoDB

MySQL

PROJECTS

Strikeapp.co (11/2021 - 04/2022)
- A cutting-edge video conferencing app I developed using React.js and Node.js, focusing on the meetings section. Integrated with Google and Outlook calendars, increasing user engagement by 20% and scheduling ef fi ciency by 15%. Received positive feedback and 4.5/5 rating. Developed my skills in real-time web app development and problem-solving.
- Tech Stack - React.js, Nest.js, AWS, Typescript, MongoDB
- Live - https://www.strikeapp.co/

Superbee Tradings (09/2022 - Present)
- A real-time trading application with an admin dashboard and integrated websockets to fetch latest stock prices from stock exchange. It was designed to provide a seamless trading experience with real-time updates of stock prices. The project not only helped me enhance my technical skills but also helped me develop my project management and problem-solving abilities.
- Tech Stack - Next.js, Nest.js, Redux, MySQL
- Live - https://superbeetradings.com/

AI Assistant (Artbot) (03/2022 - Present)
- A Progressive web application(PWA) with Real-time speech synthesis, made to automate normal day to day tasks like checking unread mails and storing files in a structured manner as well as knowing things like current temperature, latest news or a stock analysis.
- Tech Stack - Python, Flask, Typescript, React, Redux, MongoDB
- Live - https://art-bot.netlify.app/
- Code - https://github.com/Jesse0502/Artbot
